Johanna Kern of After Rain Films & the Fantasy Worldwide International Film Festival Visits Max!

<http://maxthemutt.blogspot.com/>

As part of our continued commitment to professional development at Max the Mutt Animation School, we recently welcomed Johanna Kern President of After Rain Films.

Johanna is also Executive Director of the Fantasy Worldwide International Film Festival and we are proud to report Max the Mutt student films produced in our 2006-2007 academic year will be entered into competition for screening at that festival.

We would like to thank Johanna for offering her valuable insights into film making and production. Her in depth personal knowledge of the industry is exactly what continues to make the professional development seminars at Max the Mutt a key component of training our students for real world animation practice.

We hope to see Johanna back in the near future to continue to experience the growth of our talented students and to remain a part of the Max the Mutt family!
